Your guide to what's trending this month. Here you go!

COLORED BEADS

Continue to show your colors this fall with these beaded beauties from Dauplaise Jewelry. We're loving this on-trend necklace and bracelet set, which is made of vintage glass beads, fresh water pearls, and semi-precious beads. caroldauplaisejewelry.com

Necklace, \$75
Bracelet, set of 2, \$80

DIAMOND IN THE ROUGH

Diamonds were a symbol of power long before they were a symbol of love. De Beers brings to life the raw beauty and ancient mystery of both with its Talisman collection—enchancing rough diamonds juxtaposed with polished diamonds in medallions that will radiate your inner light. \$23,700, debeers.com

WHAT'S NEW WITH WOLFORD!

Established in 1950, Wolford is a high-quality bodywear, legwear, ready-to-wear, and athleisure brand. With a renowned history of creating long-lasting exquisite fabrics and technical innovations, the brand meets the highest environmental and sustainability standards in the textile industry.

With the introduction of Wolford's athleisure line, The W—as well as The W Lab, a division dedicated to exclusive capsule collections with internationally acclaimed designers—Wolford harmoniously bridges aesthetics and values with high-performance pieces. Designed using the same iconic knitting techniques as the mainline Wolford collection, The W is Wolford's answer to the way women are dressing today.

The W collection includes matching sets, technical leggings, separates—including performance outerwear—and, of course, the jumpsuit, an iconic silhouette to the Wolford brand. Styles are executed within the Wolford aesthetic of body-skimming silhouettes perfectly fit to enhance the wearer's figure. Many styles feature sporty net patterns reminiscent of the brand's tights offering, and are finished with The W logo waistband. Learn more at wolfordshop.com.

SPICE UP YOUR HOME WITH INTERIOR DESIGNER PURVI PADIA

What's your design aesthetic?

My goal is to create spaces that feel authentic and effortlessly curated. I prefer to not follow trends but rather merge a variety of design genres resulting in spaces that have a sense of unexpected cohesiveness.

What are your top tips for millennials decorating their new Hamptons home?

To be true to what inspires them and to avoid following trends. Your home is an extension of your own personal style!

Tell us about your product line with your daughter, Reven!

House of NeveRland has been a wonderful way for us to strengthen our bond and challenge each other. I love watching her creativity. The innocent ambition of a 10 year old is such a beautiful thing to experience.

REAL ESTATE AGENT SPOTLIGHT: ROMAINE GORDON OF SAUNDERS & ASSOCIATES

Having grown up in Nantucket, what drew you to the East End?

Nantucket is such a special place, and the Hamptons reminds me of home in so many ways—the beautiful beaches, farmstands, horses, and the influx of interesting people from around the world. But unlike Nantucket, the East End offers the luxury of being able to get on Route 27 or the LIE and get yourself to pretty much anywhere you want to go.

What does the Hamptons real estate market look like after Labor Day?

The real estate market typically picks up after Labor Day. I think most people tend to be distracted with all the fun in the sun that summer in the Hamptons brings. There's just too much going on to focus on real estate. After Labor Day, the inventory increases, and everyone gets a bit more serious. The fall and winter months are typically busier than summertime.

What are you most excited for this fall Out East?

Fall is magical here on the East End. There's an energy in the air; it's hard to put into words, but it's definitely there. Fall feels like new beginnings and excitement for what the future holds. Summer is behind us, but the wheels are already in motion to start preparing for the next. And who doesn't love sweater weather?
